John,

Thanks for being so generous with your time in bringing me up to speed on the TF and the direction of the revitalization effort. It is clear that the process is in good hands and a positive outcome is in reach. Please let me know how I can be of help.

I was reflecting on our conversation and there is one thought I'd like to share. I absolutely agree that providing the community positive feedback on their comments in shaping the final TF recommendations is critical and that adding a meeting or two to your schedule may be necessary for that purpose. However, I think that doubling up on Aug & Sept meetings may have the unintended consequence of reinforcing in some people's minds the false belief that this process is being "fast tracked" for the benefit of the developers -- at the expense of the community. I know that is not your intention but the optics may be misinterpreted (intentionally or not). I think that one additional meeting in October poses less of a risk in this regard.

Again, thanks for all that you are doing to lead this effort. Happy 4th!!!!

BL
