Dear Jim: Thanks for the emailed letter from LBA regarding the work of the Seven Corners/Willston Task Force. I look forward to LBA's town meeting on Monday, and plan to have some next steps to discuss that evening.

Penny

Dear Penny -

Attached is a letter from the Lake Barcroft Association addressing, among other things, the importance of the implementation language that the Task Force plans to develop to accompany its plan and asking that you encourage/direct the Task Force to put this language out for public comment and hold an additional hearing on this language. Everyone views the implementation language as a critical aspect of the Task Force's work, and it is not something that should be finalized without the opportunity for public comment on it.

We look forward to your and John Thillmann's attendance at our community meeting on the Seven Corners Redevelopment Plan on Monday, Sept. 22.

Thank you in advance for your consideration of this request.

Jim Kilbourne  
President, LBA
