Penny:

I like the letter. You might want to bring in the point that the TF report/draft plan will be concluded for opportunity areas A and B with C the the Sears site being removed from the plan until such time as the special study concludes with language that would then be folded into the comp plan so that a complete 7 corners comp plan will then go to public hearing.

Best,  
JT

Yes, I have written a draft which is attached. Please do not share with anyone. It is written for more than the Lake Barcroft folks, but I will use it as the basis of my remarks tonight. If you have any suggestions, please let me know by 5 today.

Penny

Good morning Penny:

I have spoken to all members of the TF (including Dick Knapp) and they are all on board with separating the sears site from the plan. Are you still planning to do a letter explaining the process going forward and distribute it at the Lake barcroft meeting tonight? Also, do we need to get together before that meeting?

Best,  
John
