We always were going to have recommendations on the entire study area – recommendation that were area-wide. We can word-smith this but we need to clarify that more detailed direction will be given to some of the “non-opportunity” sites than will be done to sites of “no-change”. Just how detailed needs to be clarified so we all have the same level of expectation.

that there would be **detailed, site specific** recommendations on the entire study area,

John, please weigh in on Liz's edits. I don't think you said that tree would be very specific recommendations, but just enough guidance to avoid having to do a Plan Amendment for redevelopment in the future. Nevertheless, please clarify

See attached draft meeting notes from our meeting on Friday. Please send edits, changes, disagreement, additions around to all asap. I would like to meet with Fred as soon as possible to be sure that we are all on the same page.

Thanks

BTW, I thought that the bus trip went very well.

Barbara
