I have not received any requests for the Sears site specifically.

It has not been posted because the revised concept was not distributed to Task Force members or staff (I only have a copy that John and Pat received from one of the community meetings). I personally do not think it's appropriate to post since we are not contemplating specific developer concepts in the comprehensive plan amendment - the Task Force's concept for Sears varies from the developer's concept.

Attached is the copy I received from John and Pat.

Subject: Sears Material Posting

JoAnne, John, and Mary Ellen,

We received a request from a community member to post the recent Sears concept on our website. I don't see this material posted on the FCRevit website and to maintain consistency, and avoid any appearance of bias, I feel that it's more appropriate to directly distribute the material to community members than to post online with official Task Force material. Have you received similar requests, and can you please send the most current plan the Task Force has received?

Thank you,
Aaron
