Subject: TF meeting tonight

John,
My Ravenwood neighborhood held its Fall picnic and annual meeting on Sunday eve. Here are the points that came out in discussion of the TF work that I thought were valuable to pass along in advance of the meeting:

- Strong desire for a mixed use on the Sears site, options 1 or 4. Most call for the "Nov 2013" numbers which I think is option 1.
- Language regarding closing Juniper Lane. I realize that it may not be appropriate for the plan but at least for the implementation letter.
- Concern for total density in the plan (Areas A+B+C). I'm going to try to talk with Marianne today to understand better.

People are understandably anxious to offer the public comments before the Sears site is handled. The agenda causes for discussion, then public comment, then action. That may be fine but you might want to consider public comment before the TF discussion to assure that we can include those comments in our deliberations.

Best regards,
Marty
