Mark,

The blue sheet has your property broken into two different land units based on the way the blocks are divided up – one with 225 and one with 80 (look at two rows below the one your referring to). Together they make 305. We can try to make the spreadsheet clearer so that the number of TOTAL units is more obvious.

Joanne:

Please make the correction that Mark Silverwood states in the email below.

Best,
John

John:

The blue sheet you gave me today with the owner and list of existing units etc. is incorrect. It shows our Westover 305 LLC as 225 DU. It is 305 apartments.
Mark
