Hello Mr. Keyes:

As I mentioned in my earlier email from my smart phone, thank you for your letter. Now that I have had a chance to read the letter on a larger screen, let me say that I appreciate the concerns you raise.

The issues surrounding transportation and traffic is something we have all been wrestling with for the last few months as we have held at least three meetings devoted to the topic. Steve Tillman who we look to for guidance on Sleepy Hollow community input to the TF has been an advocate for you on this issue.

I will have Aaron Frank who is handling all of TF communications send the letter to everyone on the Task Force and I assure you that we will consider each of the points raised in the letter.

Best,  
John Thillmann
