To everyone: thank you so much for your support tonight at the presentation before the Falls Church City Council. We were very well received, and the dialogue was excellent. City council members were very appreciative, and desirous of more interactions like this.

Thank you for all your hard work on the Seven Corners/Willston plan. We have a way forward, and we're going to get this done!

Marianne, would you please share my thanks with Kim? I failed to write down her last name correctly so it's not coming up in my directory.

Penny
